HER NET PROTOTYPE: COPY DECK

All text and content extracted from the Gemini Canvas prototype, organized by section

OCTOBER 20, 2026

ABOUT THIS DOCUMENT

Source	Gemini Canvas share: gemini.google.com/share/39a46e546250
Prototype title	HER Net - Inclusive ICT Infrastructure Showcase
Browser tab title	HER Net - Women-Led ICT & Smart Agriculture Enterprise
Format	Single-page website: header, 6 sections, footer, partnership pop-up form
Extracted	October 20, 2026, from the prototype's source code, so text that only appears on interaction is included

Prompt given to Gemini:

> Create website inspiration integrating HER Net, incorporate smart agri. Women-led ICT social enterprise championing digital transformation.

Gemini's reply (chat text):

> I will generate a clean, modern, and interactive website showcase for **HER Net** (Her Empowerment & Rural Network), highlighting women-led connectivity, digital transformation, and Smart Agriculture integration in rural communities.
>
> Here is the single-file web application including an interactive Smart Agri IoT Simulator, Strategic Pillars explorer, Impact Metrics counter, Community Story showcase, and an interactive Partnership Inquiry modal.

Important: every number, place, person and quote in the prototype was generated by Gemini as sample content. None of it comes from the Access Network company profile. See Section 12 before reusing any of it.

Page map

#	SECTION	ANCHOR	PURPOSE
—	Header & navigation	—	Brand, menu, "Partner With Us" button
1	Hero	—	Main message, three buttons, three headline stats, live "node status" card
2	Strategic Pillars	`#pillars`	Four pillars with three bullet points each

#	SECTION	ANCHOR	PURPOSE
3	Smart Agri IoT Precision Hub	`#agri-simulator`	Interactive farm-sensor simulator
4	Impact & Map	`#impact`	Four impact counters and an interactive hub map
5	Community Stories	`#stories`	Three testimonials
6	Partnership banner	—	Closing call to action
—	Footer	—	Description, links, contact, legal
—	Partnership pop-up	—	Inquiry form and confirmation message

HEADER AND NAVIGATION

Logo lockup

- Wordmark: **HER Net** (“Net” in green)
- Descriptor under the wordmark: **HER EMPOWERMENT & RURAL NETWORK**
- Icon: wheat sheaf in a green-to-teal rounded square

Menu (desktop and mobile)

LABEL	LINKS TO
About Us	`#about` *(no section with this anchor exists)*
Strategic Pillars	`#pillars`
Smart Agri Hub *(with a pulsing green dot)*	`#agri-simulator`
Impact & Map	`#impact`
Community Voice	`#stories`

Header button: Partner With Us *(opens the partnership pop-up)*

1. HERO

ELEMENT	COPY
Badge	Women-Led Digital Transformation
Headline (H1)	Bridging Connectivity & **Smart Agriculture** for Rural Communities
Intro paragraph	HER Net empowers last-mile rural communities by building sustainable community fiber, solar Wi-Fi hubs, and deploying IoT Smart Agri solutions — championed by local women tech leaders.
Button 1 (primary)	Explore Initiatives → *(to Strategic Pillars)*

ELEMENT	COPY
Button 2	Smart Agri Hub Demo *(to simulator)*
Button 3	Partner With Us *(opens pop-up)*

Headline stats

FIGURE	LABEL
100%	Women-Led Teams
45+	Rural Pilots Connected
3,200+	Farmers Empowered

“Node status” card (right side)

ELEMENT	COPY
Card title	Node Status: Active
Subtitle	Hub #12 - Benguet Uplands
Tag	Solar Hybrid
Row 1 label / value / status	Community Broadband · 120 Mbps / Mesh Active · 99.8% Uptime
Row 2 label / value / status	IoT Field Telemetry · NPK + Soil Moisture Sensors · 14 Live Nodes
Row 3 label / value	Women Tech Trainees Assigned · 18 Technicians *(progress bar at 85%)*
Footer tags	Off-Grid Resilient · Community Managed

2. STRATEGIC PILLARS

ELEMENT	COPY
Eyebrow	CORE MISSION FRAMEWORK
Heading	Four Pillars of Rural Digital Transformation
Intro	Combining physical telecom infrastructure with gender equity and agricultural precision tools for holistic rural growth.

PILLAR	DESCRIPTION	BULLET POINTS
Regional ICT & Connectivity	Deploying last-mile fiber optic cables, mesh Wi-Fi networks, and solar-powered off-grid telecom hubs in unserved rural regions.	Solar Micro-Grids · Resilient Backhaul · Affordable Access
Smart Agri & Tech Integration	Equipping smallholder farming cooperatives with low-cost IoT soil sensors, micro-climate weather units, and automated analytics dashboards.	Soil & NPK Analytics · Automated Irrigation · Climate Risk Alerts

PILLAR	DESCRIPTION	BULLET POINTS
Women in Tech & Leadership	Intensive hands-on technical bootcamps training rural young women to build, maintain, and manage fiber, wireless, and IoT networks.	Fiber Splicing & Cabling · IoT Hardware Repair · Co-op Governance
Rural MSME Acceleration	Empowering local agri-businesses and women-owned micro-enterprises with e-commerce access, digital payments, and cybersecurity training.	Direct-to-Market Platforms · Digital Payment Systems · Cyber Hygiene

3. SMART AGRI IOT PRECISION HUB (SIMULATOR)

Section intro

ELEMENT	COPY
Badge	LIVE INTERACTIVE SIMULATOR
Heading	Smart Agri IoT Precision Hub
Intro	Experience how HER Net's connected sensors help rural farmers monitor soil, microclimate, and manage automated irrigation in real time.
Dropdown label	Select Pilot Farm Location:

Farm locations (dropdown options)

1. Benguet Organic Vegetable Terrace (Highland)
2. Isabela Rice-Corn Cooperative (Lowland)
3. Bukidnon High-Value Fruit Farm (Plateau)

Sensor tiles: labels and default values

TILE LABEL	DEFAULT VALUE	DEFAULT STATUS
SOIL MOISTURE	42%	Optimal
AMBIENT TEMP	24.5°C	Mild
AIR HUMIDITY	68%	Normal
SOIL N-P-K BAL.	45-30-38	ppm

Readings per farm (shown when a location is selected)

LOCATION	SOIL MOISTURE	TEMPERATURE	HUMIDITY	N-P-K	STATUS	12-HOUR FORECAST
Benguet	42%	22.4°C	72%	45-30-38	Optimal	Cool Mountain Mist & Afternoon Rain
Isabela	36%	31.8°C	58%	55-40-42	Moderate	Warm Sunny Weather expected

LOCATION	SOIL MOISTURE	TEMPERATURE	HUMIDITY	N-P-K	STATUS	12-HOUR FORECAST
Bukidnon	50%	26.2°C	65%	48-35-40	Optimal	Scattered Showers in Evening

Column 1: Local Microclimate & Soil

- Soil Water Saturation Target: 45%
- Nitrogen (N) Level: Adequate
- Forecast (Next 12 Hrs): Light Afternoon Rain expected *(default, before a farm is chosen)*

Column 2: Automated Field Controls

CONTROL	HELPER TEXT	DEFAULT
Automated Drip Irrigation	Triggers when soil moisture drops < 35%	Off
Frost / Microclimate Alert	SMS notification to women tech lead	On

Buttons: **Simulate Rain** · **Simulate Heatwave**

Column 3: Real-Time Sensor Stream (log messages)

Shown on load:

- [System] Initializing LoRaWAN Node Gateway...
- [08:30:12] Solar Hub battery status: 98% (Charging)
- [08:32:00] Soil moisture normal at 42%. Irrigation idle.

Added on interaction (each prefixed with the current time):

TRIGGER	MESSAGE
Choose a farm	[Location] Switched active telemetric node to BENGUET / ISABELA / BUKIDNON Hub.
Irrigation on	[Control] Automated Irrigation Activated by User.
Irrigation off	[Control] Automated Irrigation Deactivated.
Simulate Rain	[Weather Event] Simulated Rain +15% Soil Saturation.
Simulate Heatwave	[Weather Event] Simulated Extreme Heat -15% Soil Saturation.

Soil moisture status labels

MOISTURE	LABEL
Below 30%	Dry / Needs Water
30–70%	Optimal
Above 70%	High Moisture

4. IMPACT & MAP

ELEMENT	COPY
Eyebrow	TANGIBLE COMMUNITY IMPACT
Heading	Transforming Last-Mile Regions
Intro	Combining connectivity with localized skills training creates resilient rural economic ecosystems.

Impact counters

FIGURE	LABEL	SUB-LABEL
18	Municipalities Connected	Unserved & Remote
450+	Women Tech Trainees	Fiber & IoT Certified
35	Smart Agri Deployments	IoT Enabled Farms
240 km	Fiber OSP Deployed	Community Infrastructure

Regional Network Hub Map

ELEMENT	COPY
Heading	Regional Network Hub Map
Instruction	Select a hub location on the map to explore regional metrics.
Legend	Solar Wi-Fi Hub · Smart Agri Sensor

MAP PIN	INFO BOX TITLE	INFRASTRUCTURE	WOMEN TECHNICIANS	PARTNERS
1 · Benguet Hub	Benguet Regional Hub *(shown by default, tag "Active")*	22 Solar Mesh Wi-Fi Nodes	12 Women Technicians	Vegetable & Cut-flower Co-ops
2 · Isabela Hub	Isabela Regional Hub	15 Fiber-to-Farm Hubs	18 Women Technicians	Rice & Corn Farmers Association
3 · Bukidnon Hub	Bukidnon Regional Hub	18 Solar Agri Sensor Grid Nodes	15 Women Technicians	High-value Fruit & Coffee Farmers

5. COMMUNITY STORIES

ELEMENT	COPY
Eyebrow	VOICES FROM THE FIELD
Heading	Community Stories
Intro	Hear how HER Net's inclusive connectivity and smart agri training are changing lives on the ground.

QUOTE	NAME	ROLE
“Before HER Net installed our solar Wi-Fi hub and soil sensors, we relied on guesswork for watering our crops. Now, we check real-time soil moisture on our phones, saving hours and reducing water waste by 35%.”	Maria Corazon (MC)	Lead Farmer, Benguet Organic Co-op
“Through HER Net’s technical bootcamp, I learned fiber optic splicing and IoT hardware troubleshooting. Today, I lead a team of 5 young women maintaining our municipality’s connectivity infrastructure.”	Jenny Santos (JS)	Certified ICT Field Technician
“Partnering with HER Net enabled our municipal council to offer digital government services and online market platforms for our rural MSMEs, driving local economic opportunity.”	Arlene Gutierrez (AG)	Municipal Livelihood Officer

6. PARTNERSHIP BANNER

ELEMENT	COPY
Heading	Ready to Accelerate Rural Digital Transformation?
Body	Join governments, development organizations, telecom partners, and agri-investors in expanding inclusive ICT infrastructure across underserved regions.
Button	Become a HER Net Partner → *(opens pop-up)*

7. FOOTER

Description: Her Empowerment & Rural Network — A women-led ICT social enterprise championing digital connectivity, gender inclusion, and Smart Agri innovation.

QUICK NAVIGATION	FOCUS AREAS	CONTACT & HQ
Mission & Vision *(links to `#about`, which doesn’t exist)*	Community Fiber Broadband	HER Net Innovation Hub, Luzon, Philippines
Strategic Pillars	Solar Off-Grid Micro-Hubs	Email: partner@hernet.org
Smart Agri IoT Hub	Precision Soil & Weather IoT	Social icons: LinkedIn, Facebook, X *(no links set)*
Impact & Map	Women ICT Bootcamps	

Bottom bar: © 2026 HER Net Social Enterprise. All rights reserved. · Privacy Policy · Terms of Partnership · ESG Reporting *(none of these link anywhere)*

8. PARTNERSHIP POP-UP

ELEMENT	COPY
Title	Partner With HER Net
Intro	Collaborate with us on last-mile connectivity, smart agri pilots, or gender inclusion programs.

Form fields

LABEL	PLACEHOLDER	REQUIRED
Full Name / Representative	e.g. Maria Santos	Yes
Organization / Agency	e.g. Agri Tech Foundation / LGU	Yes
Email Address	maria@organization.org	Yes
Areas of Interest (Select All That Apply)	ICT Infrastructure · Smart Agri Pilots *(pre-ticked)* · Women in Tech · Grant / Funding	No
Message / Project Context	Tell us about your rural community or project goals…	No

Submit button: Send Partnership Request

Confirmation message

- Heading: **Inquiry Received!**
- Body: Thank you for reaching out. A HER Net partnerships lead will connect with you within 24–48 hours.
- Button: Close Window

9. DESIGN SYSTEM USED

ITEM	PROTOTYPE CHOICE
Heading font	Plus Jakarta Sans (600, 700, 800)
Body font	Inter (300–700)
Colors	Emerald green (#10B981 family, deep #064E3B / #022C22), teal (#14B8A6, #0D9488, #0F766E), gold (#FBBF24, #F59E0B, #D97706), slate (#0F172A)
Style	Dark gradient hero, frosted-glass cards, rounded pill buttons, glowing accents
Icons	Font Awesome 6.4 (wheat, tower, Wi-Fi, seedling, microchip, handshake and others)
Tech	Tailwind CSS via CDN, plain JavaScript for the simulator, map and pop-up

10. COPY INVENTORY BY TYPE

All headings

1. Bridging Connectivity & Smart Agriculture for Rural Communities
2. Four Pillars of Rural Digital Transformation
3. Smart Agri IoT Precision Hub
4. Transforming Last-Mile Regions
5. Regional Network Hub Map
6. Community Stories
7. Ready to Accelerate Rural Digital Transformation?
8. Partner With HER Net
9. Inquiry Received!

All calls to action

- Partner With Us *(header, mobile menu, hero)*
- Explore Initiatives
- Smart Agri Hub Demo
- Become a HER Net Partner
- Send Partnership Request
- Close Window
- Simulate Rain · Simulate Heatwave

Taglines and positioning lines

- Women-Led Digital Transformation
- Her Empowerment & Rural Network
- A women-led ICT social enterprise championing digital connectivity, gender inclusion, and Smart Agri innovation.
- Combining physical telecom infrastructure with gender equity and agricultural precision tools for holistic rural growth.
- Combining connectivity with localized skills training creates resilient rural economic ecosystems.

11. MAPPING TO ACCESS NETWORK

HER NET PROTOTYPE	CLOSEST ACCESS NETWORK CONTENT (COMPANY PROFILE 2026)
Regional ICT & Connectivity	Connectivity & media; fiber optic design, laying and splicing
Smart Agri & Tech Integration	Smart agriculture focus: IoT integration, connectivity in the fields, solar-powered farming
Women in Tech & Leadership	Women-led management; fiber optic training; digital jobs training
Rural MSME Acceleration	Business & IT support; cybersecurity awareness; “local businesses that can grow beyond their borders”
Solar Wi-Fi hubs	Solar installation & integration
Benguet, Isabela, Bukidnon pilots	Rizal, Llanera, Carranglan, Pantabangan, San Jose City (Nueva Ecija)

HER NET PROTOTYPE	CLOSEST ACCESS NETWORK CONTENT (COMPANY PROFILE 2026)
Partner pop-up	Partner with us / Request a quote pages in the website mockups
Not in prototype	Since 2011, three operating companies, 2023–2028 roadmap, DICT and DOST recognition, ICT Forum, research partners (PhilRice, PhilMech, PCC, CLSU, NEUST)

12. CONTENT AUDIT

Sample figures to verify or replace. None of these appear in the Access Network profile:

- Hero: 100% women-led teams, 45+ rural pilots connected, 3,200+ farmers empowered
- Node card: Hub #12, 120 Mbps, 99.8% uptime, 14 live nodes, 18 technicians
- Impact: 18 municipalities, 450+ women tech trainees, 35 smart agri deployments, 240 km fiber
- Map: 22 / 15 / 18 nodes and 12 / 18 / 15 technicians per hub
- Testimonial: 35% less water waste, team of 5 women
- Response promise: “within 24–48 hours”

Sample people and places. Maria Corazon, Jenny Santos and Arlene Gutierrez are invented names with invented quotes. Benguet, Isabela and Bukidnon are not Access Network service areas. The address “HER Net Innovation Hub, Luzon” and the email partner@hernet.org are placeholders.

Internal inconsistencies

- Hero says 45+ rural pilots, but the Impact section says 35 smart agri deployments and 18 municipalities.
- The hero card says Hub #12 has 18 technicians assigned, while the map says Benguet has 12.
- The map’s technician totals (12 + 18 + 15 = 45) don’t relate to the 450+ trainees figure.

Broken or empty links

- “About Us” (menu) and “Mission & Vision” (footer) point to `#about`, but the page has no About section.
- Focus area links, social icons, Privacy Policy, Terms of Partnership and ESG Reporting have no destination.
- The partnership form shows a success message but sends nothing.

Wording to review

- “Fiber OSP” is industry jargon (outside plant); spell it out for general audiences.
- “Telemetric node” and “Soil N-P-K Bal.” are technical; fine for the demo, but consider plainer labels.
- Mixed capitalization of “Smart Agri” / “smart agri” across the page.
