Three minimalist logo concepts for HER Net

A women-led ICT service provider and sustainable development, in blue, green, dark gray and white. Each concept is a corporate take on the logo HER Net uses today.

1 · HER SIGNAL

2 · VENUS GROWTH

3 · RISING FIGURE

BRIEF & STARTING POINT

From illustration to identity

Current HER Net logo (reference)

What we kept

- A woman at the center: the women-led enterprise
- Hair flowing as signal arcs: ICT and connectivity
- A leaf and green: sustainable development
- “HER Net” with “High-Efficiency Resilient Network” and the Access Network endorsement

What changed for a corporate treatment

- Flat shapes on a geometric grid, no gradients or illustration
- Four colors only: blue, green, dark gray and white
- Works in one color, reversed, and at 16 px
- Type converted to outlines, with clean lockups

Palette

Signal Blue
#0A5FBF · RGB 10 95 191
CMYK 95 50 0 25
ICT, the network

Growth Green
#059669 · RGB 5 150 105
CMYK 97 0 30 41
Sustainable development

Dark Gray
#2B2F36 · RGB 43 47 54
CMYK 20 13 0 79
Text, the figure

White
#FFFFFF
Space and reversals

On Dark Gray, use the lighter tints #4D9BFF (blue, 4.8:1) and #34D399 (green, 7.0:1). CMYK values are calculated; proof them with the printer.

CONCEPT 1

Her Signal — A woman whose long hair flows as signal waves.

PRIMARY LOCKUP

HER Net

HIGH-EFFICIENCY RESILIENT NETWORK

by Access Network

SYMBOL

STACKED

HER Net

HIGH-EFFICIENCY RESILIENT NETWORK

App tiles, then 32, 24 and 16 px

- **Woman, head and shoulders:** the figure from the reference, reduced to two shapes.
- **Hair as three tapering waves:** reads as long hair and as Wi-Fi at once.
- **Green outer wave:** sustainable development wrapping the network.
- **Type:** Outfit SemiBold, rounded and approachable.

Strength

Closest to the reference logo, so it keeps its equity and story.

Watch out

At 16 px the waves merge; use a two-wave version for favicons.

CONCEPT 2

Venus Growth — The women symbol, rebuilt as a network node that grows.

PRIMARY LOCKUP

HER Net

HIGH-EFFICIENCY RESILIENT NETWORK

by Access Network

SYMBOL

STACKED

HER Net

HIGH-EFFICIENCY RESILIENT NETWORK

App tiles, then 32, 24 and 16 px

- **Ring:** the Venus (women) symbol, drawn as a network node with a signal inside.
- **Stem and leaves:** the cross becomes a seedling: growth and sustainable development.
- **Blue, gray, green:** ICT on top, roots in community, growth on the stem.
- **Type:** Manrope Bold, crisp and technical.

Strength

The most distinctive and ownable symbol; reads instantly as women-led.

Watch out

Moves furthest from the reference; the signal inside the ring needs 24 px or more.

CONCEPT 3

Rising Figure — A woman whose body is a leaf, under a signal.

PRIMARY LOCKUP

HER Net

HIGH-EFFICIENCY RESILIENT NETWORK

by Access Network

SYMBOL

STACKED

HER Net

HIGH-EFFICIENCY RESILIENT NETWORK

App tiles, then 32, 24 and 16 px

- **Head and leaf body:** a woman rising from nature; the leaf vein is her form.
- **Two signal arcs:** connectivity above, like the hair arcs in the reference.
- **Simple geometry:** three shapes, so it holds up best at small sizes.
- **Type:** Plus Jakarta Sans Bold, modern and corporate.

Strength

Clearest at small sizes and on signage; friendly and human.

Watch out

Figure-with-leaf marks are common; needs distinctive type to stand out.

Shows sustainability	●●○	●●●	●●●
Link to current logo	●●●	●○○	●●○
Distinctive, ownable	●●○	●●●	●○○
Works at 16 px	●○○	●●○	●●●

Recommendation

Concept 1, Her Signal, as the primary direction. It carries the story people already know from the current logo (a woman, hair as signal, green growth) in a corporate form. Develop a two-wave version for small sizes. Keep Concept 2 as the alternative if a bolder, more ownable symbol is preferred.

Scores are a designer's assessment for discussion (3 = strong).

NEXT STEPS

From concept to final artwork

1. Choose one direction, or combine elements, at the review.
2. Refine the chosen mark: optical balance, small-size version, spacing.
3. Confirm the final colors with a printer proof (coated and uncoated), and choose Pantone matches.
4. Check the name and mark for conflicts before registering a trademark.
5. Deliver the final kit: SVG, PDF, PNG and EPS in color, reversed and one color; favicon and app icons; a one-page usage guide.
6. Update the website, Messaging Framework and templates with the chosen logo.

Files included with this deck: for each concept, the symbol, horizontal and stacked lockups in color, reversed, one color and white, as SVG with outlined type.
